

Spinal Decompression Treats Back & Neck Pain WITHOUT SURGERY or INJECTIONS!

Spinal Decompression Therapy specifically targets an injured or degenerative disc, relieving pressure on the pain-producing nerve. This procedure repositions and rehydrates the disc allowing water, oxygen, and nutrients to be absorbed. We have had tremendous results alleviating neck and back pain caused by:

- Slipped Discs
- Arm Pain & Numbness
- Ruptured Discs
- Herniated Discs
- Bulging Discs
- Degenerative Discs
- Sciatica
- Pinched Nerves

Decompression Traction Therapy is very affordable and cheaper than surgery. Spinal Traction is highly recommended by Neurological Research. It was found that out of 778 cases of patients receiving spinal decompression 92% said that they showed improvement. ~ (Neurological Research, Volume 20, Number 3, April 1998)

FOR A LIMITED TIME ONLY!

\$45

(Valued at over \$375)

Chronic Pain and Fibromyalgia Suffers

Let Our New Computer Technology Detect the Hidden Cause of Your Pain

F.D.A. registered, computer aided technology is now being used to assist in detecting underlying nerve and muscle problems that can be responsible for:

Chronic Pain, Fibromyalgia and Chronic Fatigue Syndrome.

PAINLESS PROCEDURE

This painless, low cost, surface thermography and surface electromyography procedure can assist doctors in diagnosing many painful conditions without the use of needles. Misdiagnosis has been cited as a reason for chronic pain.

New technology now reveals that underlying nerve and muscle problems can be the cause of pain associated with the above conditions.

Let our new computer program pinpoint the cause of pain

Don't suffer needlessly any longer. Our proven methods have helped thousands to regain their health and get their life back.
